1       (b) *SENSE OF SENATE.—It is the sense of the Senate*  
2 *that—*

3           (1) *the information requested in the report de-*  
4 *scribed by subsection (a) is critical—*

17 *United States troops that will be necessary in*  
18 *Iraq during 2005 and 2006, and in any years*

22 *plemental Appropriations Act for Defense, the Global*  
23 *War on Terror, and Tsunami Relief, 2005 as soon as*  
24 *possible; and*

1           (3) *the Secretary of Defense should communicate*  
2           *to Congress and the American people why the report*  
3           *was not submitted to Congress by the original dead-*  
4           *line for its submittal.*

5           *SEC. 533. SENSE OF THE SENATE. (a) FINDINGS.—*  
6           *The Senate finds that:*

7           (1) *On February 6, 2002, Director of Central In-*  
8           *telligence George Tenet testified that “[A]l Qaeda or*  
9           *other terrorist groups might also try to launch con-*  
10           *ventional attacks against the chemical or nuclear in-*  
11           *ustrial infrastructure of the United States to cause*  
12           *widespread toxic or radiological damage.”*

13           (2) *On April 27, 2005, the GAO found that “Ex-*  
14           *perts agree that the nation’s chemical facilities*  
15           *present an attractive target for terrorists intent on*  
16           *causing massive damage. For example, the Depart-*  
17           *ment of Justice has concluded that the risk of an at-*  
18           *tempt in the foreseeable future to cause an industrial*  
19           *chemical release is both real and credible. Terrorist*  
20           *attacks involving the theft or release of certain chemi-*  
21           *cals could significantly impact the health and safety*  
22           *of millions of Americans, disrupt the local or regional*  
23           *economy, or impact other critical infrastructures that*  
24           *rely on chemicals, such as drinking water and waste-*  
25           *water treatment systems.”*

1           (3) *As of May 2005, according to data collected*  
2           *pursuant to the Risk Management Plan (RMP) of the*  
3           *Environmental Protection Agency (EPA), a worst-*  
4           *case release of chemicals from 2237 facilities would*  
5           *potentially affect between 10,000 and 99,999 people,*  
6           *a release from 493 facilities would potentially affect*  
7           *between 100,000 and 999,000, and a release from 111*  
8           *facilities would potentially affect over 1,000,000.*

9           (4) *On April 27, 2005, the GAO found that EPA*  
10          *and RMP data was based on a release from a single*  
11          *vessel or pipe rather than the entire quantity on site*  
12          *and that “[A]n attack that breached multiple chem-*  
13          *ical vessels simultaneously could result in a larger re-*  
14          *lease with potentially more severe consequences than*  
15          *those outlined in ‘worst-case’ scenarios.”*

16          (5) *On April 27, 2005, the GAO found that “De-*  
17          *spite efforts by DHS to assess facility vulnerabilities*  
18          *and suggest security improvements, no one has com-*  
19          *prehensively assessed security at facilities that house*  
20          *chemicals nationwide.” GAO further testified that*  
21          *“EPA officials estimated in 2003, that voluntary ini-*  
22          *tiatives led by industry associations only reach a por-*  
23          *tion of the 15,000 RMP facilities. Further, EPA and*  
24          *DHS have stated publicly that voluntary efforts alone*

1       are not sufficient to assure the public of the industry’s  
2       preparedness.”

3               (6) On June 15, 2005, Thomas P. Dunne, Dep-  
4       uty Assistant Administrator for the Office of Solid  
5       Waste and Emergency Response of the EPA testified  
6       that “[O]nly a fraction of U.S. hazardous chemical  
7       facilities are currently subject to Federal security re-  
8       quirements” and that “we cannot be sure that every  
9       high-risk chemical facility has taken voluntary action  
10      to secure itself against terrorism.”

11              (7) On June 15, 2005, Robert Stephan, Acting  
12      Undersecretary for Information Analysis and Infra-  
13      structure Protection and Assistant Secretary for In-  
14      frastructure Protection at the Department of Home-  
15      land Security testified that that the Department “has  
16      concluded that from the regulatory perspective, the ex-  
17      isting patchwork of authorities does not permit us to  
18      regulate the industry effectively.” Stephen further tes-  
19      tified that “[I]t has become clear that the entirely vol-  
20      untary efforts of [chemical facility] companies alone  
21      will not sufficiently address security for the entire  
22      sector” and that “The Department should develop en-  
23      forceable performance standards...”

24              (8) The Senate Committee on Homeland Secu-  
25      rity and Governmental Affairs, through a series of

1       valuable and wide-ranging hearings, has dem-  
2       onstrated bipartisan commitment to effective Congres-  
3       sional action to protect Americans against a possible  
4       terrorist attack against chemical facilities.

5       (b) *SENSE OF THE SENATE.*—It is the sense of the Sen-  
6       ate that the Congress should pass legislation establishing en-  
7       forceable Federal standards to protect against a terrorist  
8       attack on chemical facilities within the United States.

9       SEC. 534. In light of concerns regarding inconsistent  
10      policy memoranda and guidelines issued to counties and  
11      communities affected by the 2004 hurricane season, the Sec-  
12      retary of Homeland Security, acting through the Under  
13      Secretary for Emergency Preparedness and Response, shall  
14      provide clear, concise, and uniform guidelines for the reim-  
15      bursement to any county or government entity affected by  
16      a hurricane of the costs of hurricane debris removal.

17      SEC. 535. Not later than 60 days after the date of en-  
18      actment of this Act, the Secretary of Homeland Security,  
19      acting through the Under Secretary for Emergency Pre-  
20      paredness and Response, shall submit to the Committee on  
21      Homeland Security and Governmental Affairs of the Senate  
22      and the Committee on Transportation and Infrastructure  
23      of the House of Representatives a report describing any  
24      changes to Federal emergency preparedness and response  
25      policies and practices made as a result of the report of the

1 *Inspector General of the Department of Homeland Security,*  
2 *dated May 20, 2005, relating to the individual and house-*  
3 *hold program of the Federal Emergency Management Agen-*  
4 *cy in Miami-Dade County, Florida, in response to Hurri-*  
5 *cane Frances.*

6       *SEC. 536. It is the sense of the Senate that the Sec-*  
7 *retary of Homeland Security should conduct a study of the*  
8 *feasibility of leveraging existing FM broadcast radio infra-*  
9 *structure to provide a first alert, encrypted, multi-point*  
10 *emergency messaging system for emergency response using*  
11 *proven technology.*

12       *SEC. 537. Not later than 90 days after the date of en-*  
13 *actment of this Act, the Secretary of Homeland Security*  
14 *acting through the Under Secretary for Emergency Pre-*  
15 *paredness shall propose new inspection guidelines that pro-*  
16 *hibit inspectors from entering into a contract with any in-*  
17 *dividual or entity for whom the inspector performs an in-*  
18 *spection for purposes of determining eligibility for assist-*  
19 *ance from the Federal Emergency Management Agency.*

20       *SEC. 538. None of the funds appropriated under this*  
21 *Act may be used to promulgate regulations to implement*  
22 *the plan developed pursuant to section 7209(b) of the 9/11*  
23 *Commission Implementation Act of 2004 (8 U.S.C. 1185*  
24 *note) to limit United States citizens to a passport as the*

1 *exclusive document to be presented upon entry into the*  
2 *United States from Canada by land.*

3 *SEC. 539. (a) Congress makes the following findings:*

4 *(1) The Homeland Security Advisory System*  
5 *had been raised to threat level Code Orange, a level*  
6 *which indicates a high risk of terrorist attack, on six*  
7 *occasions since the Advisory System was created in*  
8 *March 2002, prior to the raising of the threat level to*  
9 *Code Orange following the bombings that occurred in*  
10 *London on July 7, 2005.*

11 *(2) The Code Orange threat level remained in*  
12 *place for an average of 13 days on each of the first*  
13 *five occasions that it was raised to that level.*

14 *(3) The sixth elevation of the threat level to Code*  
15 *Orange occurred in August 2004 and ended 98 days*  
16 *later, making it four times longer than any other such*  
17 *alert and constituting half of the days that the United*  
18 *States has been under a high risk of terrorist attack.*

19 *(4) The Conference of Mayors estimates that cit-*  
20 *ies in the United States spend some \$70,000,000 per*  
21 *week to implement security measures associated with*  
22 *the Code Orange threat level.*

23 *(5) The recommendation to elevate the threat*  
24 *level is made by the Homeland Security Council, a*  
25 *group of Cabinet officials and senior advisors to the*

1       *President and Vice President, (in this section referred*  
2       *to as the “Council”).*

3               *(6) In May 2005, Secretary of Homeland Secu-*  
4       *urity Tom Ridge revealed that there was often consid-*  
5       *erable disagreement among the members of the Coun-*  
6       *cil as to whether or not the threat level should be*  
7       *raised.*

8               *(7) There remains considerable confusion among*  
9       *the public and State and local government officials as*  
10       *to the decision-making process and criteria used by*  
11       *the Council in deciding whether the threat level should*  
12       *be raised to Code Orange.*

13              *(b) Not later than 180 days after the date of the enact-*  
14       *ment of this Act, the Comptroller General of the United*  
15       *States shall conduct a study examining the six occasions*  
16       *in which the Homeland Security Advisory System was*  
17       *raised to Code Orange prior to July 2005 and submit to*  
18       *Congress a report on such study.*

19              *(c) The report required by subsection (b) shall include*  
20       *an explanation and analysis of the decision-making process*  
21       *used by the Council to raise the threat level to Code Orange*  
22       *in each of the six instances prior to July 2005, including—*

23                      *(1) the criteria and standards used by the Coun-*  
24       *cil in reaching its decision;*

1           (2) *a description of deliberations and votes of the*  
2           *Council were conducted, and whether any of the delib-*  
3           *erations and votes have been transcribed or were oth-*  
4           *erwise recorded in some manner;*

5           (3) *an explanation for the decision, on the sixth*  
6           *occasion, for the threat level to remain elevated for 98*  
7           *days, and what role, if any, staff of the White House*  
8           *played in the decision to raise the level on that occa-*  
9           *sion;*

10          (4) *a description of the direct and indirect costs*  
11          *incurred by cities, States, or the Federal Government*  
12          *after the threat level was raised to Code Orange on*  
13          *each of the six occasions; and*

14          (5) *the recommendations of the Comptroller Gen-*  
15          *eral of the United States, if any, for improving the*  
16          *Homeland Security Advisory System, including rec-*  
17          *ommendations regarding—*

18                (A) *measures that could be carried out to*  
19                *build greater public awareness and confidence in*  
20                *the work of the Council;*

21                (B) *whether the Council and the Secretary*  
22                *of Homeland Security could benefit from greater*  
23                *transparency and the development of more clear-*

25                *decision-making process;*

1                   (C) *whether the current composition of the*

9           (d) *The report required by subsection (b) shall be sub-*  
 10           *mitted in an unclassified form.*

11       SEC. 540. STRENGTHENING SECURITY AT NUCLEAR  
 12       POWER PLANTS. (a) FINDINGS.—*The Senate finds that—*

13                   (1) *A taped interview shown on al-Jazeera tele-*  
 14                   *vision on September 10, 2002, included a statement*  
 15                   *that al-Qaeda initially planned to include a nuclear*
